

Earthwise Bag Company Poised for Growth

LOS ANGELES, CA, (NAMC) - California based startup company, Earthwise Bag Company, Inc., is focused on offering supermarkets, grocery stores and liquor stores a line of reusable shopping bags and wine totes that are suppose to reduce waste by offering an inexpensive, environmentally-friendly alternative to disposable plastic and paper shopping bags

The company has reported that they have seen positive results with their current customer base and are poised to expand nationally. In late 2005 the company ran a 90 day beta test at 25 Albertsons supermarkets which later expanded to over 500 California and Nevada locations.

Their product line may well indeed become the norm across the nation as more businesses are thinking green.
